Department of Biological Sciences

BACHELOR OF SCIENCE PROGRAM OF STUDY

*Students are encouraged plan their own course selections; **PLEASE READ COURSE DESCRIPTIONS** in the **UNDERGRADUATE COURSE CATALOG**. Most elective courses have prerequisites that must be taken **BEFORE** you take the elective course. To see your own progress, you can see and print out your own Degree Audit from you My FIU. If you need assistance or have any questions you are encouraged to see an advisor prior to each registration period. Make Advisor appointment through your Dashboard. All Biology faculty members serve as biology career advisors and have designated advising times. All Science and Math courses must be completed with a grade of "C" or better to satisfy the requirements.

Transfer Students

Transfer students with >60 credits, must take half of their upper division credits at FIU.

A **maximum** of 60 lower division semester hours taken at a two-year or a four-year institution may be counted toward the degree. A maximum of 30 upper division semester hours taken at a senior institution may be counted toward the degree.

Lower division courses in excess of 60 semester hours may serve to meet specific course requirements for the degree, but credit hours represented by these courses **will not** reduce the number of credit hours to be completed at the University.

Foreign Language requirements - You must satisfy the following two requirements:

- 1) FIU Flent/Flex requirement – 2 years of high school foreign language satisfy Flent/Flex
- 2) College of Arts & Sciences (CAS) requirement – With a grade of C or better, the student may meet the requirement by completing
 - a) the second semester of a two semester sequence of a basic language course (Ex. Japanese II)
 - b) any second or third year foreign language course.....or:

The CAS foreign language requirement may also be met by acceptable scores in

- a) the AP exam (minimum score of 4)
- b) the CLEP exam (minimum score: Spanish,63; French, 59; German, 60) - **Testing Office GL120**
- c) the SAT II exam (minimum score of 699)
- d) any other approved tests

Minor in Biology

BSC 1010 and BSC 1011 with labs and three upper division elective courses and an upper division lab (3000-level or above) with one each being in any three of the following four areas: A. Ecology, B. Organismal Diversity, C. Physiology/Biochemistry, or D. Structure/ Development.

<u>Course</u>	<u>Distribution Area (Applies to Minors Only)</u>
PCB 3043 Ecology	Ecology (A)
PCB 4674 Evolution	Organismal Diversity (B)
PCB 4023 Cell Biology	Physiology/Biochemistry (C)
PCB 3063 Genetics	Structure/Development (D)

One of the three elective courses must be at the 4000-level or higher and one must include a lab. Total upper division biology credits must number 10 or more. Grades of "C" or better are required for all courses and the labs.

Pre-Medical, Dental, Optometry, Physician Assistant, Pharmacy, Podiatry and Veterinary Curricula

Students who have fulfilled the requirements for the BS in Biology will also have satisfied most of the course requirements for admission to the above mentioned professional schools. Interested students should consult a Pre-Medical Advisor (DM 331; 305-348-0515) for arranging a curriculum to enhance their potential to gain admission to these professional schools.

Enrollment Status – for continuous enrollment in a semester, dropping courses can change enrollment status.
